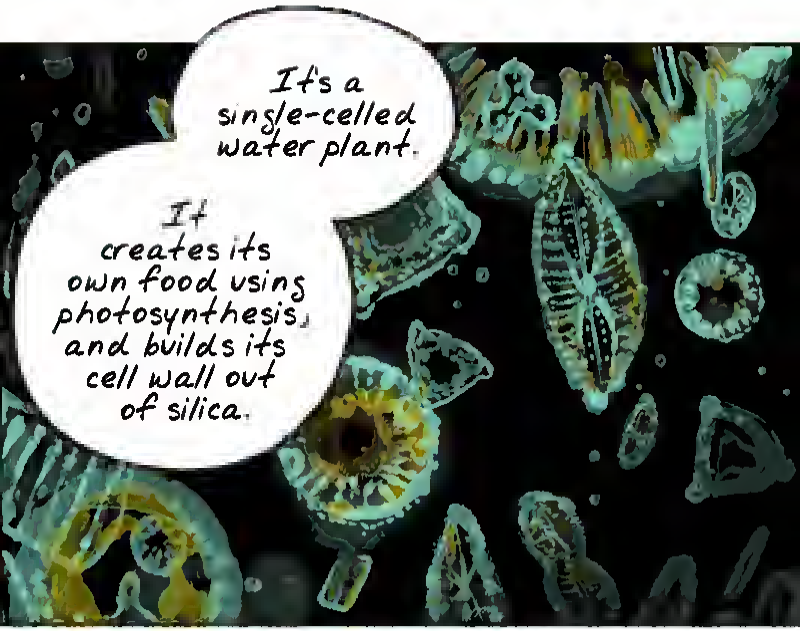
Wow...
What did you find?

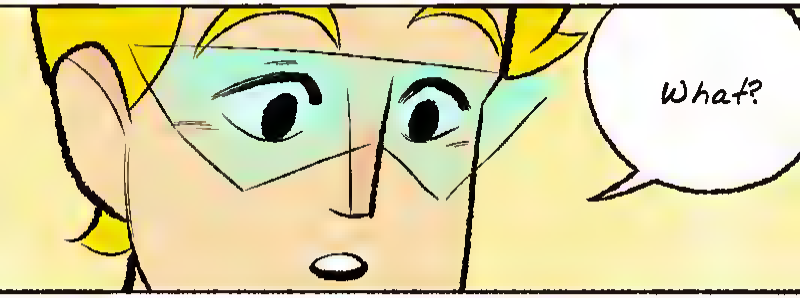
Diatoms, I think.
Take a look.
Um--

What's a diatom?
Sorry, I haven't been doing the reading...



It's a single-celled water plant.
It creates its own food using photosynthesis, and builds its cell wall out of silica.

In other words, it's a creature that eats light, and lives inside a glass shell.
Pretty, amazing, huh?



What?

You're feeling better.
Aren't you?

Yeah.

GLOMP!
Oh, I'm so glad!
I was

worried about you!
The snow day was good for me.
Gave me time to process.
Hey, are you crying?
Sniff!
No.
Ahem--
So...
You ready for the big game tonight?
Yeah...

I'm a bit nervous playing the Bandits, given my history with them.

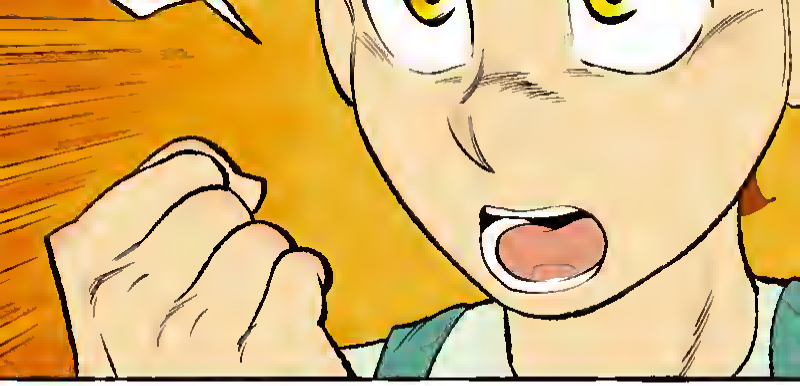
BUTT!



During lunch I head off campus and catch a bus over to Penn Hill.

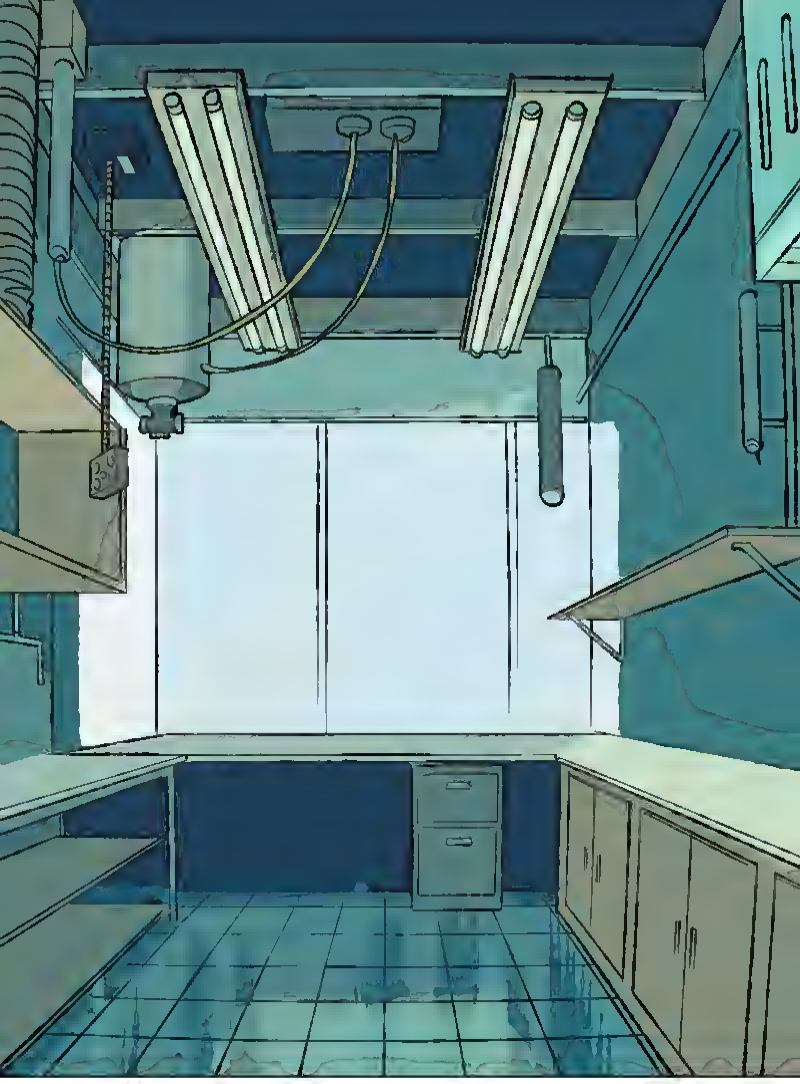
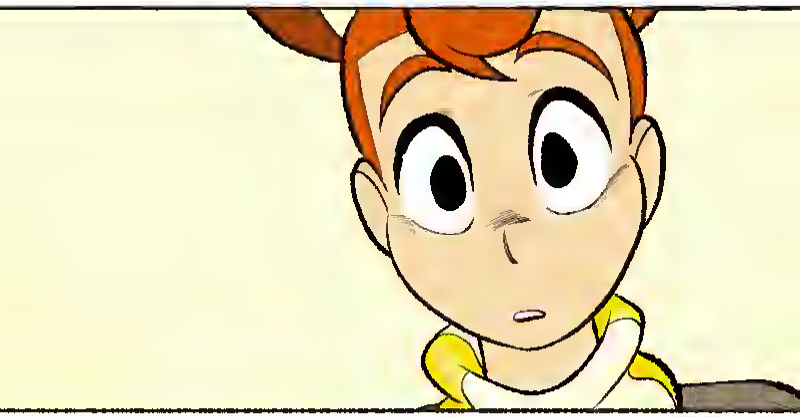
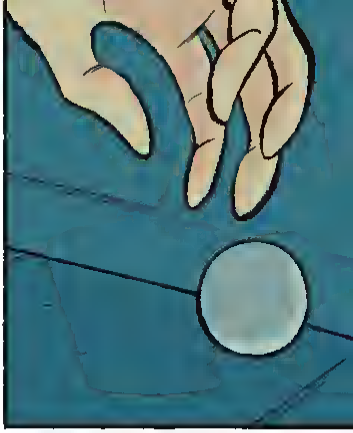
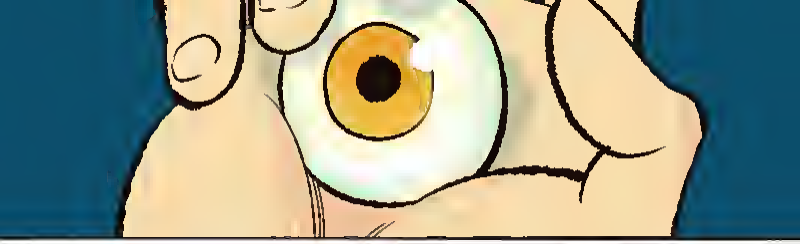
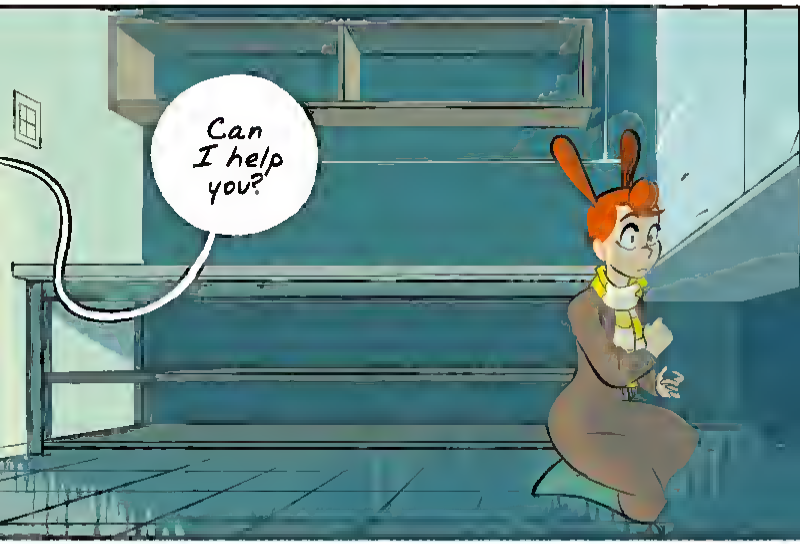
Johnathan Kim, MD, PhD, CP
Prosthetics Department











Can I help you?

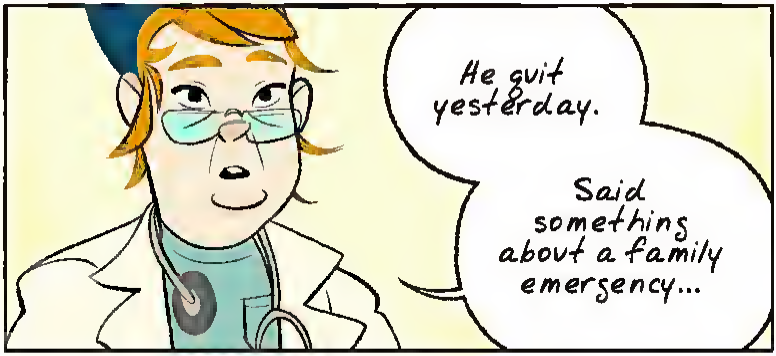
Oh!

Uh...
I'm fine, thanks!

Wait, actually--
Do you know where Dr. Kim is?

Oh...
I'm afraid he doesn't work here any more.

What?



He quit yesterday.
Said something about a family emergency...

What?!

Awesome!
I feel like even your pose is Amy-like.

Emma

"My brothers and I are always super excited on Thursday to read Space Boy together. We decided to dress up together for Halloween. My mom was super awesome and sewed the vests, ties, scarf and skirt for us. Thanks for designing characters with warm clothing :)"
